

HE SAID YES TO PERSPECTIVES

OVER 20 YEARS AGO, our founders hired teachers, enrolled students and prepared to open their very first Perspectives campus when they got a call from City Hall. School officials let Kim and Diana know that their approved school site fell through, and they needed to identify a new site within 12 weeks.

Like relentless founders do, they set out to find a new school home and miraculously they met the late **Shelly Baskin**, a South Loop developer who said “Yes” to Perspectives. He identified an old warehouse and had it converted into a school house for the first day of school.

Fast forward to today, Shelly’s beloved wife, **Judy Wise** and their children learning about our new campus vision and once again said “Yes” again to supporting our new school home, and gave Perspectives an unprecedented gift of **\$1,000,000** to build a state of the art track at our brand new campus!

Shelly had the capacity and the heart - and this combination made Perspectives possible. What one man can do. **Thank you, Shelly for standing beside us so many years ago** and to the **The Baskin Family Foundation** who stand beside us today.
