Dear PCS Scholars and Parents,

In order to maintain a college prep environment in all of our math classes, our scholars will be required to have a graphing calculator of their own for the 2019 – 2020 school year. This will allow them to become more familiar with this important technology in class, and it will lead to a greater ability to complete quality, rigorous homework. Students need this calculator for success on the SAT. This is also a resource that all colleges and university math classes require of their students.

Although we recognize that graphing calculators can be expensive, we see this as an investment in your scholar’s education, and it will lead to greater success in high school and college math courses. We are providing a number of different retailers who carry this graphing calculator.

Sincerely,

Karla Morris
Math Instructional Leader

**Required calculator: TI-84 Plus Retail Options:**

**New Calculators**
- Walmart or Walmart.com – $104.51
- Target or Target.com – $104.99
- Office Max – (online and in stores) $119.99 – $142.99
- Office Depot – (online and in stores) $119.99 – $129.99
- Staples – (online and in stores) $119.99 – $129.99
- BestBuy – (online and in stores) $117.99 – $137.99
