

Perspectives

We live a Disciplined Life.®

February 26, 2020

Dear Perspectives Families,

We are notifying you because, as you may have seen in the news today, the Centers for Disease Control issued a warning that incidence of coronavirus might increase in the coming days or weeks. We take our responsibility for the well-being of our students seriously. Out of an abundance of caution, we are attaching and linking the [Chicago Public Schools' Health and Wellness Memo](#) on how CPS will respond should we be impacted by the virus.

Please be assured that we have not have any cases of the virus within our network. We are continually monitoring the CDC website to stay abreast of any new developments or protocols. Additionally, as always, if your student isn't feeling well, please keep them home from school and notify us of their absence.

Perspectives will continue to monitor the situation as more information becomes available, but we want you to know that we are attending to this important public health issue. If you have further questions about the school's response, please contact me.

Sincerely,

Deborah Stevens, CEO
Perspectives Charter Schools
